Re: **Gotion Inc.**

Dear Mark:

Our firm serves as legal counsel to Gotion Inc. (“Gotion”). We are in receipt of your letter written on behalf of your client, the Charter Township of Big Rapids (the “Township”), dated February 10, 2023 requesting a written response on or before February 24, 2023 to a list of several questions related to Gotion’s proposed battery plant project (the “Project”).

Following the initial public unveiling of the Project in September, Gotion has been working to engage its team of consultants, refine the scope of the Project, and fine-tune site plan layouts. The initial phase of the Project includes development of the adjoining property in Green Township. Therefore, Gotion’s efforts have been primarily focused on the core area of development and not on the Township property where development has currently been placed on hold.

In regards to the Township’s requested responses to your letter, it is my understanding that many of the questions were previously answered and are available on the Township’s website. As it relates to the more specific questions surrounding utilities, the Project hasn’t been fully engineered at this point and we will plan to reach out to the Township once more detailed site engineering is available.

We appreciate the Township’s interest in the Project and we look forward to working with the Big Rapids community on bringing this exciting project to the region. We will reconnect with you as the site plan is finalized to discuss the Township’s questions. In the meantime, please don’t hesitate to contact me with any questions.

Very truly yours,

A handwritten signature in black ink, appearing to read "Jared T. Belka", written over a horizontal line.
